ReportWorX™

Standard Training

Course Duration

- 1 day

Prerequisites

- All ICONICS training courses are there to teach you how to design and develop your Manufacturing Intelligence application with the various tools provided by the BIZVIZ™ suite of products, therefore an adequate knowledge of Windows and general Windows applications is assumed of all trainees.

- Normally hardware is to be provided by the trainees and have the required software preinstalled prior to attending the course which includes:
  - o Microsoft .net Framework
  - o Microsoft Excel
  - o MSDE or SQL Server
  - o Internet Information Server (IIS)
  - o ICONICS ReportWorX™
